## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, 11, 16, 19, and 20, drawn to a first gas separator product for fuel cells, a fuel cell stack using the first gas separator and the first process of making the first gas separator.

Group II, claim(s) 10, 17, 18, and 24, drawn to the second process of making the first gas separator.

Group III, claim(s) 12-15, 21-23, 25, and 26, drawn to a second gas separator product for fuel cells and the process of making the second gas separator.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I-III share the special technical feature of a gas separator having rugged shapes that are formed in both faces of the separator to define a flow path of a fluid passing through the inside of a fuel cell. As this special technical feature does not define a contribution over the prior art as shown by US. Pat. No. 6,291,094 B1 to Yoshimura et al. (see Figure 4), no single general inventive concept exists and unity of invention is lacking. Note only the first appearing category of claims is grouped together as the main inventions, pursuant to Rule 37 CFR 1.475 (d).

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1745

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
